PUBLISHED WEEKLY — PORTERVILLE, CALIFORNIA

Thurs., Jan. 7, 1965

**NEW CHAIRMAN** of the Tulare County board of supervisors - John R. Longley, of Porterville, who serves on the board from the Fifth district, and who is now in his third term. He succeeds Malcolm Crawford, of Dinuba, who did not seek reelection by the board to the position of chairman. (Farm Tribune photo)

## We Only Heard

BY BILL RODGERS

PORTERVILLE'S NEW numbering system was completed the last week in December, and with the exception of about 200 locations where owner or occupant could not be reached, notification has been given as to new number, which, according to a city ordinance that became effective January 1, should be posted by now on all buildings . . . But great balls of fire, we noticed this morning that our old number is still up on our house — and on our business . . . Could that be the wailing of police sirens we hear, sirens that keep getting closer and closer.

GENERAL PLAN for Porterville and its surrounding area — a total of 31 square miles — is getting into the work stages, with the city council and city planning commission to meet the first and third Thursdays of each month with Planner Larry Wise to discuss various aspects of preliminary plans prior to the drafting of final plans and the scheduling of public hearings . . . Tonight the group is holding its second work session on possible future development of downtown Porterville; next area to be studied is the community's road system; this will be followed by many other items related to planning . . . We suggest that if you are interested in property or general development within the area of the foothills on the north and east; Teapot Dome road

## WES KUTZNER NAMED TO MEMORIAL BOARD

PORTERVILLE, Jan. 7 — Wes Kutzner, Springville real estate man, has been named to the board of the Porterville Memorial district to fill the unexpired term of the late Bill Wood.

Announcement of the appointment was made by Cyrille Faure, board chairman.

## SPRINGVILLE MOD DINNER JANUARY 17

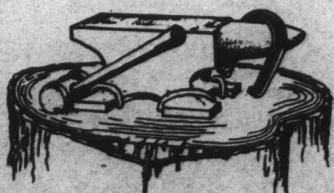

SPRINGVILLE, Jan. 7 — Members of the Springville Lions club will serve their annual March of Dimes dinner in the Memorial building on Sunday, January 17, from noon until 8 p.m., with all profits going to the MOD foundation that now works in the field of birth defects.

Dinner tickets, at \$2.00 for adults and \$1.00 for children under 12, are being sold by Lion club members, and will be available at the door.

PORTEVILLE HORSESHOEING and Training School—one of the nation's most unique private schools, has moved its "campus" to its permanent location - the former Hoover stables at Henderson and Jaye, and enrolled its second class of students for the three-month course. Lower photo shows class members, from left, front: Dick Bird, Madora, North Dakota; Tom Boerner, Alton, Illinois; Jess Williams, Modesto; and Les Evey, Albuquerque, New Mexico. Back row: Telford Rowe, New Berlin, New York; Bob Daniels and Gary Hedges, both from Lander, Wyoming; Emmett Manthe, Airways Heights, Washington; Joe Trhlík, Downers Grove, Illinois; Hank McEwan, instructor; Kenneth Schwamb, Long Island, New York; Eric Koens, Mequon, Wisconsin; and Dick Benkert, Centereach, New York. Other photos show classroom work underway both inside and outside at the school, which offers academic training and practical experience for modern-day horseshoers and horse trainers. ## "NO MORE PROCRASTINATION" ON AGRICULTURE BUILDING SAYS TULARE COUNTY GRAND JURY IN ITS 1964 REPORT

VISALIA, Jan. 7 — "No more procrastination" from the county board of supervisors in regard to construction of a new building to house the various agricultural offices in the county was strongly recommended in the 1964 report of the Tulare County Grand jury that was issued last week.

The agriculture committee of the grand jury, composed of Peter E. Pinkham, Virginia Woodall, Merle Soultis, and Manuel I. Rocha, urged that county supervisors set up a calendar of deadlines in the necessary steps toward construction of an agricultural building

to assure a positive date for start of construction in 1965.

In a highly critical statement, the grand jury report said, "Taxpayers should be urged to descent to the basement of the Visalia Post Office and observe first-hand where our county's number one industry hides its "Research and Development" department, the Farm Advisor's office.

"This branch of the University of California, so lively and vital to our economy, is crammed into quarters more suitable for the county morgue. Seventeen farm and home advisors, plus a clerical staff

of ten, occupy "phone booth" quarters so jammed and inadequate that it is truly remarkable that we have any efficiency or service whatever from this subterranean labyrinth.

" . . . The committee feels that this valuable and worthwhile service, which has so materially aided our county's farmers in becoming number two in the nation in crop value, should be elevated from the basement and put on display. It is this county's pride as well as its economy that is at stake.

"The committee urges and rec-

### GOLF COURSE SHOULD PAY ITS WAY

As we keep saying, the Porterville Municipal Golf course should operate in the black.

It hasn't been doing this.

From 1945-46 through 1963-64 the golf course was in the red \$26,887.45. Add the city's \$28,870 for a new clubhouse that will be started soon, and it is likely that the red ink will be writing something like \$55,000 by the end of the 1964-65 fiscal year.

Now, from one standpoint, this isn't too bad, when averaged out over the period from 1945-46.

Except it isn't good enough; there is no reason why the general taxpayer of the city of Porterville should subsidize a recreational activity that caters to a very small per cent of the population; particularly when that small per cent of the population is quite capable of paying its own way, and also particularly when there seems to be no reason that the golf course can't stay in the black if sound business ideas are applied to the operation.

But hark. At this point we hear the thunder in the not too distant distance.

Says the thunder, "But the city puts out lots of money, year after year, to provide Murry park, to provide the Municipal ball park, to provide the softball and Little League park, and to provide a recreation program. This is almost a 100 per cent red ink operation, and the general taxpayers are putting up the money. So why pick on the golf course?"

To answer the thunder we can only say this. To justify one red ink operation on the basis that there are other red ink operations is an argument without logic. If there are those who question the cost and value of the parks and playing fields and recreation program provided by the city, then let them come forth and dis-

cuss these items one at a time on their own merits. Actually there has been conversation along this line within the city council and we have an idea that come the 1965 budget sessions, there will be more than the usual study and appraisal in these areas of city operation.

Meanwhile, taking the golf course as it is, we suggest that it is a responsibility of the city administration to put the Porterville Municipal Golf course on a paying basis.

And the sooner the quicker.

### SO THE "LITTLE GUYS" CAN HIT THE CENTURY MARK TOO

What do you do when your two aces don't show up? Toss in the towel? I mean these two guys score baskets blindfolded. They got built-in bombsites. Thirty points is a bad night. But some nights they have a bad time finding the gym. Oh, they've been there before, but you know how it is, the rain and all, and besides, some nights a guy just doesn't feel like playing basketball.

Well, if you are Coach Jim Maples of the Porterville College Pirates you take a long look at your rather puny-looking crew of leftovers and start drawing names out of a hat. But, you only have six names, so that's over with pretty soon. Then you turn them loose and they go out and whip a taller Victor Valley College Ram five 105-66.

It turns out that the bids like to run. And that's what they did. They ran so far and so fast that pretty soon the tall Rams are trying to talk the Ref into playing half-court for the rest of the game, and no fair passing behind the back, either. And what's this stuff, taking a ball away from a fella right when he is dribbling down the floor, and intercepting

passes, too. It's getting so a man that's 6-8 isn't even safe out on a court with a guy who is 5-10.

The feather merchants like to shoot, too. One little guy by the name of Kenny Conklin pumped in 26 points. When we saw the Pirates play San Joaquin Delta of Stockton, Conklin's entire game consisted of getting nearly half way out of his sweat clothes when one of the aces twisted an ankle. Ron Varter, who is little in the world of basketball at 6-1, whipped in 25 points and took rebounds away from people five inches taller. Craig Camp unveiled a beautiful jump shot from about 20 feet out and picked up 19 points. Jerry Tyler swished in 17 points and little Juan Hernandez, running like it was the Olympics, got 14. Big Merl Schmetgen didn't score at a record breaking pace, but the 6-8 youngster is learning a lot about what the game is all about. And he WAS there.

The Porterville College Pirates are a good basketball team. They could be very good. They run well, and they shoot well. Just how good the Pirates will be depends on how well a few individuals come through. Basketball is a team game and when an individual assumes that he is bigger than the team, then there is no longer a place for that individual on the team.

If you should get tired of watching pro wrestling on TV you should catch the city league basketball games once in a while, just for a change. The normal offense in a city league game seems to be a fast break off a half-Nelson. Most of the teams employ a four man line on defense with blitzing linebackers. I think a guy could use a hatchet without anyone noticing.

Nursery

By John

The start of a new year generates all sorts of feelings from relief that the old is gone to determination that the new will be somehow different. It is truly a new year for gardening and for nurserymen because it begins a new season starting with bare root stock and blending into spring and terminating with warm weather. It's sort of like the beginning of a "new frontier" or a "great society" among the plant-minded.

It takes real frontiersmen to accomplish much during the stormy weather outside. The frontier instinct is evident however in mothers that once stood by the doors watching for Indians now standing equally determined watching for kids with muddy feet.

While we don't have to extoll the virtues of ample watering, with over six inches of rainfall, we should mention that pruning must be finished fairly soon. We have the shears, the pruning paint, and books on how to do it along with answers to some individual pruning problems. So far we have no fool proof ideas about getting the old boy off the couch. Some things defy science.

Bare root roses are ready, berries are in good supply, fruit trees are in stock, and of course the tables are groaning with dormant sprays. We hope you'll come in soon and purchase the stuff.

By RUTH LOYD

(Note to my avid readers: The stupid editor left this out last week. S/Ruth)

I thought I could get out of writing this column this week, but then I got to thinking of Dorothy Killgalan and how she has to get her column in by a deadline, so here goes. I can't let Dorothy get ahead of me.

Ann Donohoe, I'm sorry. I called you Linda last week and I have no idea why. You don't even look like a Linda. I hope I didn't confuse Bill too much.

Have you ever tried cutting off the names of people who have sent you cards and tried to send them to new people? It doesn't always work, and makes the cards awfully short.

I like Christmas cards with a picture of the whole family. In that way I can see whether the mother of the family is getting older than I am.

I object to the word "Xmas". I am going to start a campaign against using the letter "X" in place of the word Christ. The letter "X" in algebra means an unknown quantity. Why use it for

the word Christ?

Rod Ballew came home for Christmas. He has been stationed at Ft. Sam Huston. I thought he might have acquired a Texas accent but I guess not.

Judy and Ed Keller were guests of her parents, Frank and Dorothy Baxley. Judy is teaching in her spare time. These new brides teaching, keeping house, and training a new husband must be very busy, but knowing Judy I can see how it could be done, and well.

Linda Lindgren brought her new husband home for the holidays. Bob and Linda Snyder live in Coronado where Bob is in the Navy. Linda is doing some social work and enjoys it a great deal.

Jack Anglin knocked out the north wall of the Cocktail Lounge and now the Beauty Bar is part of the Lounge. Forty more seats for people to sit in when they go to the Bunyan for New Year's Eve. John Corzine says that Max Denning will be there with his combo. This is one night of the year that the employees like to work. Free hats and noise makers. Free champagne for all people with two heads. This wasn't John's idea. It was mine. Three o'clock in the morning there will be a break-

fast served. Then the happy people will rush home to their families and the children will wake up at six o'clock. How brave can one be.

**Behrens Property Sale Reported At Terra Bella**

TERRA BELLA, Jan. 7 — Elma Mae Behrens has sold about twenty-one acres of land surrounding her home in the Grand View Heights area at the Northeast corner of Avenue 100 and Road 260 to Edward C. and Ola D. Sorensen, of Ventura. Mrs. Behrens will continue to live in her home on a site of approximately one and one-half acres.

The Sorensens do not plan to move here soon but in a few years will plant the land to orange trees and build a home on the property. The sale was made through the office of Sterling Ensign, realtor, of Terra Bella.

"Something To Crows About" is the title of a sound color movie dramatizing the poultry meat industry that has been released by the U.S. department of agriculture.

**SUCCESS VALLEY 4-H CLUB HAS ACTIVE MONTH**

By Phil Larson

SUCCESS VALLEY, Jan. 7 — A number of activities were enjoyed by the Success Valley 4-H club members during the month of December. Preceding Christmas, members, their families and leaders met at the Veterans' Memorial Auditorium to hear the Christmas program performed by students of the High School Music department. Following the program, the group met at a downtown coffee shop for refreshments. There were 28 in the party group, including nine 4-H members.

For their Education tour, club members met at Porterville Justice court to witness the legal procedure of juvenile traffic court, arraignments, and the hearing of a felony manslaughter charge. Judge George Carter explained court procedure to the 4-Hers and answered their questions. Members learned the meaning of the nolo-contendere plea, the degrees of crimes and various penalties imposed in Justice Court.

Preceding the regular monthly business meeting which was held in Murry park, members held a

project tour to inspect and learn the progress of one another's projects. Kathy Wardlaw led the 4-H pledge. JoWayne Brown read the minutes of the October and November meetings. Treasurer's report was given by Deanna Ramirez. The Junior Leaders outlined their respective plans for the January meeting.

President Beverly Weisenberger announced the Talent contest to be held January 16, 1965, at the Exeter High School auditorium. Kathy Wardlaw reported the club's Christmas party. Project reports were given by Marcia Monroe and Kathy Wardlaw. Under new business, members voted for a community service project and an organized club activity of "citizenship". The meeting adjourned to singing and recreation. A picnic lunch was enjoyed by seven members, three leaders and two visitors.

**WEED CONFERENCE MIDDLE OF JANUARY**

SACRAMENTO, Jan. 7 — The 1965 California Weed Conference is slated for the Hacienda hotel, in Fresno, January 19, 20, and 21, with more than 500 farmers, and other interested persons, expected to attend.

A New Production Record

The only manufacturer in the world to accomplish this feat, IH produced its first tractor in 1906. Interestingly, it wasn't even known as a tractor then, but was identified as a "gasoline traction engine", later shortened to "tractor".

## CHAPEL CHIMES

By  
Rev. N. J.  
Thompson

Frankincense and myrrh, gifts  
of the wise men to the infant  
Jesus, are now used in industrial  
perfumery. The perfume chemist  
today is busy masking offensive  
odors. He can give sauerkraut  
waste a mint odor! He perfumes  
thousands of evil-smelling items  
such as solvents and liquid wood  
plastic, ceramic tile cement, gun  
bluing agents, rust preventives,  
sunburn lotions, anesthetics, even  
feathers used for filling pillows.

That "fine old leather" smell of  
men's wallets is deceiving. Since  
people love the smell of leather,  
manufacturers are spraying plastic  
wallets, luggage, and handbags  
with chemicals that give the  
aroma of leather!

Just as the perfume experts cover  
up bad smells, the devil ingeniously  
masks the stench of wickedness.  
He makes the cocktail bar, sex,  
divorce, the easy dollar, and  
selfish ambition all very desirable.  
And many of us aid and abet His  
Satanic Majesty in his great de-  
ception! Our national crime rate  
stinks to heaven; but we try to  
cover the stinking mess by saying  
criminals are "mentally ill" and  
"socially handicapped". We ex-  
cuse our appalling divorce rate  
that has wrecked over four million  
homes, by blaming it on "incom-  
patibility". We call our drunks  
"alcoholics" and say "alcoholism  
is a disease."

How is it with you? Is your re-  
ligion the real thing? Or is your  
church-going just a mask? Do you  
pretend to be fine old leather,  
when you're really cheap plastic?

Has the devil baffled you into  
buying "a form of godliness" that  
lacks the power and love of God?  
Real Christianity, of course, means  
following Christ, stepping in His  
footsteps, looking to Him for guid-  
ance as we try to be like Him.

We, too, can be wise men and  
present Christ with gifts. What  
gifts? Something more precious  
to Him than frankincense and  
myrrh—our hearts and heads and  
hands.

ALL OF the headlines about re-

Talk about gopher hunters! Felix

**GRAND JURY**

(Continued From Page 1)  
ommends that our supervisors turn  
the 'make do' situation which now  
exists in the basement into a 'must  
do' construction program, now."

The grand jury report also says  
that the county of Tulare has done  
a magnificent job of providing  
quarters for wrongdoers and that  
it is past time to focus plans and  
action to house the county's right-  
doers, the farmers.

Importance of agriculture to the  
economy of Tulare county was  
stressed, with the agricultural  
committee report stating that in  
excess of 60 per cent of county tax  
dollars come from agriculture.

Major offices that would be  
housed in a new agriculture building  
would be the Agricultural Ex-  
tension service and the Agricul-  
tural Commissioner's office.

In relation to agriculture, the  
grand jury committee found "each  
department run by competent men  
and in commendable fashion."

The agriculture committee also  
recommended: That an ordinance  
be drawn to control the distance  
from the edge of county roads that  
trees may be planted;

That future refuse dump sites  
be acquired now;

That funds be allocated for pur-  
chasing of blind corners and for  
clearing away obstructions in the  
interest of traffic safety;

That future needs of the depart-  
ment of weights and measures be  
met now by purchase of property  
adjacent to the present facility.

er? The hills are so beautiful and  
green, and families were wander-  
ing around happily picking mush-

them is at the Buckaroo. All  
French fried.

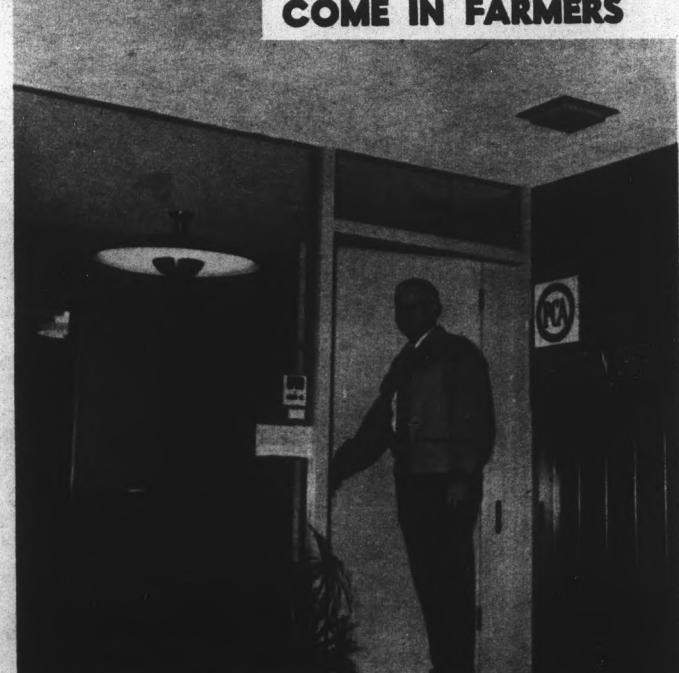

Tommy Thomas has been in the  
Marines for seven years. He had  
one experience that must have  
helped when he joined the Marines.  
When his older sisters were Camp-  
fire age Tommy went with the  
girls to camp. He was supposed  
to gather wood and do helpful jobs  
around camp. Here he was with a  
couple of hundred girls. He was  
without doubt the most popular  
inmate of that camp. After watch-  
ing him at that camp I can see  
why he joined the Marines. Tom-  
my is here now getting his wife  
Micky and two children settled.  
They will stay here while Tommy  
is in Okinawa. The Campfire  
camp wasn't the same the next  
year when Tommy declined to be  
part of the education of so many  
girls. Four sisters, yes, but not  
girls in the hundreds.

I called Retha Marshall to ask  
about Richard, and how he liked  
Stanford. Retha answered the  
phone with a growl in her voice.  
It seems that Bob Marshall had  
groomed around that morning and  
hadn't gotten to the bus when he  
should have, and if he had called  
to have Retha please take him to  
school she was going to kill him.  
It was just sweet innocent me calling  
to find out about Richard. Of  
course Richard loves Stanford, and  
is doing as well as we thought he  
would, and is having a wonderful  
time studying and all the extra  
curricular activities a red blooded  
American boy is supposed to have  
when he gets away to school.  
Richard is pretty smart. A girl  
he met at school is a sailing buff,  
and Richard is learning about port  
and starboard the easy way.

I understand that Peggy Park-  
er, who is going to school in Texas,  
came home for Christmas with a  
drawl. I'm sure Lady Bird would  
approve. You all.

Happiness is having all the  
Christmas mess put away for an-  
other year.
